Quito, P 110901

Bold Profile

SUMMARY

Senior Software Developer specializing in full-stack systems and AI integration. Experienced in building high-performance applications with Node.js, TypeScript, and React, while optimizing database performance and automating workflows. Proven ability to lead data migration projects and enhance business processes with advanced technology solutions.

SKILLS

- JavaScript
- TypeScript
- React
- Html
- Node.js
- ExpressJs
- NestJs
- Django
- Flask
- Python
- MongoDB
- PostgreSQL
- MySQL
- Keras
- Pytorch
- Scikit-learn
- GPT API

EXPERIENCE

07/2022 - Current

Software Developer, StackBuilders S.A, Quito

- Node.js CLI Development: Engineered high-performance CLI tool in Node.js to migrate 40% of legacy data from Wagtail (CMS) to MDX files, streamlining documentation process for "Docs as Code" system.
- Data Engineering with Go: Developed a CLI tool in Golang to automate data archiving from AWS PostgreSQL to S3 buckets, improving storage efficiency.
- AI Integration: Led Proof of Concept (PoC) with OpenAI API to integrate LLMs into business processes, improving automation capabilities and providing insights for future implementations.
- Performance Optimization: Executed advanced query optimization for large-scale databases, significantly reducing latency for backend services.
- Backend Systems: Developed complex systems with Haskell and Django, leveraging strict typing and functional principles to enhance system reliability and maintainability.

08/2021 - 06/2022

Software Developer, Iqbit, Quito

- Full Stack Systems: Developed debt tracking system with modern JavaScript stack, achieving high availability and data consistency.
- Mobile Development: Built and maintained Radio Application using React Native, ensuring real-time streaming stability.
- Process Automation: Automated jobs with Google Cloud Scheduler and Cron Jobs, reducing manual processing by 20%.

05/2019 - 11/2019 **Junior Web Developer, Mosflor SA, Quito**

- Developed online store prototype using Angular for frontend and Flask for backend, facilitating user testing and feedback.
- Created documentation and schema modeling for database, enhancing transparency and streamlining developer onboarding.
- Developed responsive web applications using HTML, CSS, and JavaScript.
- Collaborated with designers to create user-friendly interfaces for various projects.
- Assisted in debugging and troubleshooting issues within existing codebases.

EDUCATION

01/2020 **Informatics and Computer Systems Engineering**
Escuela Politécnica Nacional, Quito, Ecuador
